DRAGUNOV SVD SNIPER

Dragunov® SVD, Real Wood

Ref. 17185

The Dragunov® SVD AEG sniper rifle, licensed by Concern Izhmash, Russia, the original manufacturer of the legendary SVD.

Modeled after the original Dragunov®, introduced in 1963, known as the SVD (short for Snayperskaya Vintovka Dragunova "Dragunov Sniper Rifle"), this airsoft rifle features a very authentic look with real wood stock and front-guard as well as metal barrel, receiver and magazine. The cheek-rest can be removed for better aiming while wearing a mask, and gives a more comfortable handling of the rifle. Semi-automatic only. Uses a custom gearbox.

Mounting rail on the side for a scope mount ref. 16347, or for authenticity chose ref. 16824 a functioning replica of the original scope for the Dragunov®.

Includes battery, charger and High-cap magazine.

Features:

- Very authentic look, feel and weight
- Adjustable Hop-Up
- Real wood stock and front-guard
- Removable cheek rest
- High-cap 120 BB magazine

OPEN BLASTER

Now going green in Airsoft, no longer means wearing camouflage.

The New Environment Friendly Airsoft BB for Pro Games.
Finally you can go green while maintaining accuracy and consistency in your Airsoft gun. Manufactured to exact dimensions within a $\pm 0.01\text{mm}$ tolerance. This environment friendly BB will shoot tight groups at long distances. Nontoxic and safe for people and environment tested according to EU and US regulations.

The BB's contain PLA, a thermoplastic polyester derived from renewable resources, such as corn starch, or sugarcanes. It biodegrades in the presence of primarily moisture and oxygen.

- Recommended for expert players
- Recommended for high-end AEGs

Advanced Combat Goggles, 3 color kit

Ref. 17273

Impact resistant goggle system that comes with everything needed right out of the box. The goggle system allows quick lens changes depending on the lighting conditions on the shooting range, whether moving in bright sunlight or sneaking in the dark the goggles can be set up to give optimal visual performance. The choice between wearing the goggles either with elastic strap or as safety glasses just adds to the usefulness of this goggle system.

Included is 3 interchangeable lenses, the base frame, and both elastic strap and temples, all in a handy nylon pouch that can be easily attached to a belt or tactical vest.

Use the clear lens in low-light conditions, the amber lens enhances contrast and lets you see the targets clearly and the dark lens protects your eyes in intense sunlight.

Cartridge 6mm for DW, bag of 12 pcs., Power-Down

Ref. 17351

The Power-down cartridges for the Dan Wesson 6mm Airsoft revolvers reduces the velocity more than 50% by simply restricting the gas-flow thru the cartridge itself. This is a fast and simple way to lower the power to an average of 1 Joule or less, allowing the Dan Wesson to be used in all skirmishes and on all shooting ranges.

Set of 12 pcs.
